

### **Perry Roofing and Siplast Awarded Buena Vista Palace Re-Roof**

June 8, 2009 - Lake Buena Vista, FL. - Re-roofing of the Buena Vista Palace Hotel and Spa will begin on Wednesday, June 10. Perry Roofing, who worked with Consultant Gary Mitchell of Arnold and Associates on this project, will begin by removing a section of the old, irreparable roof. Once removed, a new Siplast roof will be installed.

Perry has over 30 years of experience in quality roofing work and only employs safe, highly skilled roofers. All work will be done in sections to ensure little disruption to guests.

The hotel underwent \$45 million dollars of renovations in 2007 and this will cap off the transformation. A new roof will insure that the stunning features housed within the hotel will be well protected, keep daily operations running smoothly and ensure that employees and guests are well covered.
